# TROCAR SYSTEMS WITH VALVE

Setting new standards means putting the status quo into question. Medicel's engineers have certainly done just that. Replacing sophisticated, expensive and fragile reusable products by cost-effective high-quality single-use instruments is one of our core principals. Medicel, a pioneer in micro-incision cataract surgery has significantly contributed to the development of micro-surgical techniques.

## Single-use trocar system

- Enhanced trocar fixation
- Enhanced trocar surface secures defined positioning
- MVR-bladed system in 23G / 25G / 27G
- Irrigation silicone-oil ready

- Protection cap ensures safe handling during procedure
- Integrated marker for 3mm/4mm improved surgical workflow
- Cap contains integrated forceps for trocar manipulation

ITEM CODE	TECHNIQUE	BLADE	SILICONE OIL-READY
<b>STS300</b>	one-step	3 x <b>23G</b> MVR-blade handpieces with titanium trocars	✓
<b>STS500</b>	one-step	3 x <b>25G</b> MVR-blade handpieces with titanium trocars	✓
<b>STS700</b>	one-step	3 x <b>27G</b> MVR-blade handpieces with titanium trocars	✓
